Experience

Jan Trøst Jørgensen has more than 25 years of experience from research and development in pharmaceutical, biotech and diagnostic companies, such as Novartis, Novo Nordisk and Dako. Within the last 10 years his focus has been on drug-diagnostic co-development projects within oncology. Dr. Jørgensen is a strong supporter of a more individualized pharmacotherapy and has published a number of scientific papers on oncology as well as on stratified and personalized medicine. He is an editor and co-author on a recent book about personalized cancer medicine and molecular diagnostics entitled - "Molecular Diagnostics - The Key Driver in Personalized Cancer Medicine".
