

Erik Christensen, Chief Executive Officer

Erik Christensen (1956) is Chief Executive Officer in DiaGenic ASA. He graduated as a doctor of medicine from Odense University in Denmark 1983. After also qualifying as an MD in Norway in 1985, Erik continued in biochemical research at the National Hospital in Norway and gained his PhD in 1991. In parallel, he further specialised in Clinical Pathology and qualified in Clinical Chemistry in 1992. He worked as a senior consultant at Ullevål University Hospital in Norway before joining Abbott Laboratories in 1996. In Abbott he held positions within scientific affairs, commercial management and finally as country manager in Norway for the Diagnostics Division. Erik joined DiaGenic in January 2007.
